

**Lomme Design Platform announces the launch of its first exclusive product
“THE LOMME BED” the latest in design and functionality for rest and
rejuvenation.**

Vaduz, Liechtenstein, 18 April 2006, Lomme design platform is pleased to announce the launch of Lomme; its line of luxury beds.

The naturally shaped sleeping pods mix state of the art sleep-enhancing technology with one of the oldest organic shapes in nature – the egg.

The Lomme is the ultimate combination between nature, art and design. Its clean lines evoke a feeling of desire which makes this product unique and “one of a kind” so pleasing to the eye while enhancing the senses it makes going to bed irresistible.

Lomme is the result of two years’ research into common sleep problems and natural therapies. The challenge therefore was not just a design one, it was a combination of multiple elements that once achieved resulted in **Lomme** *Light over matter mind evolution*.

Owners of Lomme beds will benefit from state of the art light and sound therapy, which remove outside disturbances and allow you to wake naturally feeling refreshed and full of energy. The egg shaped design gives you comfort and protection and makes this the best looking bed on the planet.

Commenting on the launch Agnieszka Bernacka Managing Director of Cycle 13 in Vaduz Liechtenstein, said, “We are so fortunate to have such a strong team of designers and technical assistants as well as distribution and manufacturing partners and I wish to thank our co founder of the Lomme Design Platform Günter Thony especially for his immense experience and enthusiasm in being a key part of this amazing product and Andreas Batliner for his skill and attention to detail which has ensured an amazing result.

Lomme’s design brings sleep into focus and is creating a wave of interest about the environment in which all of us spend a third of our lives. Cycle 13 has made it a mission to educate about the problems of interrupted sleep and the importance of creating the most relaxing, protected and natural environment to get the best quality sleep to restore energy levels for the day to come.

Lomme is a restoration project - converting thousands of hours of unsatisfactory, interrupted sleep into deep, replenishing, natural rest.

The Lomme bed is now available to see, test and design your personal requirements for finishing’s and interior, for more information please visit www.lomme.com
